Ms. B. [name redacted for public archive]

RE: NTIA FOIA 24-037

On February 21, 2024, the National Telecommunications and Information Administration (NTIA), Office of the Chief Counsel, received from the Department of Commerce your request pursuant to the Freedom of Information Act (FOIA), as amended (5 U.S.C. § 552). Your request is as follows:

- Full disclosure on the 457 frequency as to who has access to this frequency.
- Does the frequency relate to a software, particular assigned military section, is used commercially within cybernetics or medical research in body area networks, is it assigned to military research and if so, what are those purposes for it globally on Canarie, and Zayo medical frequency data access?
- Is it used in counter terrorism, violent offender NSO tracking, and is it used in private prison research, and or including fusion center research.

On February 27, 2024, NTIA sought further clarification of your request, and provided a link with instructions and guidance regarding the filing of a proper FOIA request. We also provided links with public information about the 457 MHz spectrum band. On March 4, 2024, NTIA received your Privacy Act request as follows.

- Any and all records and/or documents that have been prepared, received, transmitted, collected and/or maintained by the NTIA and if available the IRB/REB, and the following frequencies allocated with the use of semiconductors, both corrosive and non-corrosive inside of the human body for medical device testing inside of Canada.
- 447 MHz with a magnitude of 18 dBm (UHF). Designation is P band, two-way communications.
- 457 MHz with a magnitude of 12 dBm (UHF) used in Bluetooth and high speed communications.
- 1.88 GHz with a magnitude of 13dBm (UHF) used for military telemetry, GPS and GSM.

- 2.67 GHz with a magnitude of 24 dBm (UHF) used in high speed communications satellites.
- When carrying out the search, please do so under all of these names and aliases that I have had over my life. Ms. B. [name redacted for public archive]

On March 13, 2024, NTIA sought further clarification of your Privacy Act request, and provided a link with instructions and guidance regarding the filing of a proper Privacy Act request. The letter also informed you that NTIA would close your request if NTIA did not hear from you after more than 30 days. To date, NTIA has not received a response from you indicating you would like to modify your request, and it has been more than 30 days. Therefore, as permitted by Department of Commerce regulations, NTIA is closing this request administratively. 15 C.F.R. § 4.11(i)(4).

If you have any questions regarding the processing of your request, please contact Katherine Keechle at kkeechle@ntia.gov.

Sincerely,

Stacy M. Cheney Digitally signed by Stacy M. Cheney
